Project Objectives

To provide assistance to the Company to help with the development and implementation of a management system that integrates ISO9001, ISO14001 & OHSAS18001.

Background

Krol Corlett is a Merseyside based construction company operating across the Northwest of England. The organisation prides themselves on delivering construction projects on time and within budget, providing innovative construction solutions for public and private sector clients.

Their success is based on their belief that they have the ability to understand and appreciate their client's requirements, working in partnership with the entire project team to exceed the client's expectations.

Assistance Provided

An integrated management system was generated and implemented that mirrored the objectives and commitment to continual improvement of the senior management team. The client decided to achieve ISO9001 first and pursue ISO14001 & OHSAS18001 at a later date.

Outcomes

The system was assessed by ACS Registrars and certified to ISO9001 at the first attempt with no major issues. The company have now been assessed and certified to ISO14001 & OHSAS18001 again with no issues.

RKMS have over 20 years experience in risk and compliance other services include, business improvement/lean management, environmental health & safety support and ISO standards implementation
